	Tomahawk			770-640-0003	We JUST used Tomahawk, (770) 640-0003, to remove 2 trees, cut back very tall Holly and grind a stump of 1 of the trees we removed. They were good. VERY reasonably priced. The only strange part was that Tomahawk is like a general contractor – they send out 1 company to take down the tree and thin limbs, then they send out another company to take away the big logs and then a third company to grind the stump. They were all bonded/licensed and insured. It took a little longer than I expected, but for the price it was totally fine.
