ACS Heating and Air	Joe Pinson	(770) 939-7500		 Audra Anders	I asked for HVAC recommendations several years ago when I needed a new system. I compared several and chose ACS Heating and Air. They worked with me to figure out what I needed without trying to oversell me. Their prices were the most reasonable also. I've continued to purchase the maintenance contract for my new unit each year and have received excellent service with ACS Heating and Air!
Air Connections, Inc.	Jeff	(678) 344-2644		Sandi Strasburg	They are in Lawrenceville. They are friendly and reliable. They installed our entire HVAC system, upstairs and in the basement, including a central dehumidification and air purification system. This included 5 different zoned thermostats. They do great duct work too. We have a maintenance contract with them as well.
Air Control Atlanta		(770) 667-5300	http://aircontrolatlanta.com/	mike cain	We've used ACA for 8 years now. The serviced our old system until it died and gave us the lowest bid on a new Heat/Cooling system. They also service the unit twice per year (fall/spring). They are very professional and scheduling is never a problem. I would highly recommend them. Never have we had an issue with them
Air Necessities	Ken Bush	(770) 908-1802		 Audra Anders	Ken doesn't supply new units but simply is an HVAC repairman. He has serviced all of my HVAC units for years and still does so for my rental house. He is so honest that he truthfully advised me that it was time to purchase a new unit at my home rather than keep paying him to fix the old one. He is very honest, thorough, and timely and I highly recommend him!
Breakview Heating and Air	Cortez Bray	(404) 454-2749		Judy and Pierre Kimball	Cortez Bray, owner, of Breakview Heating and Air has changed the way we view HVAC servicing. He is extremely knowledgeable. Serving with RS Andrews for several years as their #1 service manager, he began his own business 5 years ago and has grown but not out grown his personal touch. We have used him for all our rental homes and our personal home as well. He will tell you what needs repair and explain the best method to resolve problems. He's very price competitive. My son had his whole house done including new duct work and pricing was 30% less than the next quote. Just call them 404.454.2749.
Climate Technicians Incorporated	Steve Renner	(770) 934-0510		Dori Miller	We heard about Climate Technicians from our neighbor who used them to install a new system. They installed a new HVAC system for us as part of a home remodel that we did six years ago. They did quality work and were easy to deal with. Steve has continued to service the system every year. He is very flexible and has really good customer service when there is an emergency. Recently we had to move some of the lines to the AC unit when we added a deck. They quickly came out to do the work and did not even charge us.
Climate Technicians Incorporated	Steve Renner	(770) 934-0510		Carolyn Friedlein	I wanted to second Dori's recommendation for Steve Renner of Climate Technicians Incorporated. Steve is very honest and will not try to sell you a product or service you don't need. As the business owner Steve does an excellent job of responding to calls and providing information. We've used him for several years for regular service, furnace repair, and installation of a new upstairs unit.
Cunningham & Associates	Bob Cunningham	(770) 455-6722	www.c-air.net	Anne West	Bob has a real knack for hiring the best people – experts in their field and friendly, clean, courteous, etc. They put in zones and a new furnace for our 40+ year old home and we've been so comfortable since. The 2nd story is cool in the summer and the basement is warm in the winter. The crew probably left the area around the furnace/HVAC system in the basement cleaner than it was when they started. Bob provided several options to solve our problem and explained the pros and cons of each. They also did a tankless hot water heater, which we love.

Cunningham & Associates	Bob Cunningham	(770) 455-6722	www.c-air.net	Lynn Embs	I recommend Cunningham Associates Heating & AC. We started using them back in 2005 when, just back from our honeymoon, my husband hammered a nail into our Freon line. We weren't sure WHAT the hissing sound was, so called the fire department to make sure it wasn't gas. After they tried to cover up their laughter, they suggested we call an AC repair guy. Cunningham Associates is very professional, ON TIME, and reliable. We chose them randomly from the phone book. We've continued to use them because they are good, don't overcharge, and fix ONLY the problem at hand.
Dunwoody's Choice Heating		(800) 717-9521		Fran Weigard	Dunwoody Choice has been good for us. We had Shumate for years but switched for better service & lower prices.
Griffith, Kenny	Kenny Griffith	(770) 712-0138		Laura K. Schilling	He is incredibly responsive, kind and competitively priced. He does jobs big and small and is a family guy with young kids. It is his business. 770-712-0138 it is his cell so easy to reach him. I have been using him for my house and my rental for I think 10 plus years since he opened his business? Good luck!!!!
Hamilton, Baldwin	Baldwin Hamilton	(678)768-6214		Kathy Powell	His prices are very reasonable, but more importantly for me, he's very trustworthy and explains what he's going to do. He even went as far as to draw me a diagram to explain what was going on (he clearly loves to teach people and wasn't the least bit condescending) and since he knew I didn't have the money to replace it right then, he's been doing annual fixes that have enabled me to have more time to save for a new system. I'm generally a little nervous about repair people coming when I'm home by myself, but I trust Baldwin completely. It's nice to have a good guy to call instead of having to call a big company where you don't know who you'll get.
Kern's Heating and Air	Jim Kern	(706) 200-6497		Cindy Sedran	HVAC and all appliances I met Jim when I had a home warranty and he has been to my home many many times. I have always been pleased with his work and his knowledge of all appliances. Several folks in Dunwoody have used him as well and are also very pleased.
Milton HVAC		(770) 360-1297		Janis Sheftel	I started to use Milton HVAC...I have a contract with them for one year...just renewed it. For under \$200 I get my AC and heating completely checked (I have 2 units). Then they come 2 more times just to change out the filters. They are always nice and accommodating. They also try to send the same person each time so they are familiar with the units. Hope others begin to use them...they seem quite competent.
R & D HVAC	Robbie	(678) 506-5227		Susan Ammons	This company was referred to me the first time we lived here & I missed them when we were gone! Robbie is the owner.
R&D Mechanical services inc	Robbie	(770) 917-1795	http://www.randdmechanical.com	Cheri Coyle	Can't say enough good things about them. Honest and trustworthy
RK Heating and Air		(770) 833-8262	http://www.rkhvac.com	Mike Martin	RK is the nicest guy and he is very knowledgeable and honest. We used him to put in a new system a few years back and have recommended him to a some of our other Meadowlake neighbors and they were happy too.
Spencer Heating and Air		(770) 447-5289		Doug Scott	We've been using Spencer Heating and Air for over thirty years. They have worked with us both personally and professionally and we've been extremely satisfied. You can reach them at 770-447-5289. The sons are carrying on the father's tradition of using long-term, well trained employee technicians.
Trinity Heating and Air	Chris Tarascio	(404) 226-2481 Trinityservices@hotmail.com		Diane Grant	It is a small business, with Chris and his assistant, Terry. We have used them for many years. They do great work and are usually less expensive than the other companies. Thanks! Diane Grant Assistant to Andy Stanley
Tuxedo Heating and Air	Wayne Huckabee	(678) 409-2381		Cindy Sedran	HVAC and Plumber Wayne did some plumbing in my home and I was very pleased. He comes highly recommended from many folks in Chamblee as well.
