Authentic Hardwood	678-985-0110 678-878-5356	<a href="http://authenticcoak.com/">http://authenticcoak.com/</a>	I used Authentic Hardwood. The owner, Mike Keroack, was able to install real hardwoods over our "slab." Nobody else said that we could put in real hardwoods in our non-basement situation, and Mike did an incredible job. Our floors are beautiful.	Nora Floersheim
Chastain Wood Floors	770-374-3011 4266 Roswell Rd NE Atlanta, GA 30342	<a href="http://www.chastainwoodfloors.com/">http://www.chastainwoodfloors.com/</a>	We used Chastain Wood Floors and were 100% satisfied. They are rated 5 stars on Kudzu so I expected a great job. He went out of his way to ensure we were completely satisfied. You're dealing directly with the owner. He actually does the work or supervises it. His price was lower than others, his work was superior and his customer service skills were excellent. I've only recommended two companies on kudzu and this one deserves a top rating.	Joe Bowen
Emperial Hardwood Floors	Ricky & Lori Core 770-424-3219	<a href="http://www.kudzu.com/m/Emperial-Hardwood-FloorsInc.-25226050">http://www.kudzu.com/m/Emperial-Hardwood-FloorsInc.-25226050</a>	I have had two houses in Dunwoody done by Emperial. Both jobs had combinations of demolition, refinishing, installing and matching. The recent job involved refinishing some teak flooring. Rickey has about three crews but oversees the entire process. Everyone knows how frugal I am, but I am willing to pay for quality work. Emperial does high quality work and are reasonably priced for the quality job they perform. Ricky will give you a firm schedule and stick to it. If something is not exactly right – he'll make it right. He'll work with you to give you options and price points, and you can count on the job being done right.	Mark Mac
			I've used them in 2 different houses. Small business. Great reviews on Kudzu.	Kim W

Magnolia Flooring	770-560-4055		Great guy! He actually reduced his final quote because he felt it was too high. Who does that?! We have had many friends and family use him.	Karin

			When we moved into our house a couple years ago, we had all the hardwood floors refinished in our house. We worked with Michael Chatkin with Peach Design, Inc. and he was outstanding. He is very nice, has a great crew, very attentive to the job and has reasonable rates. They did a great job refinishing and also adding hardwoods to our front hallway. It was a huge job with hardwoods throughout the house. When we update our kitchen someday, there is no question that I will use Michael to install the hardwoods. He is great!!!	Kelly Grant
Pope Hardwood	770-499-0991 or John Kaminsky 770-652-6709	<a href="http://www.popehardwood.com/">http://www.popehardwood.com/</a>	When we bought our house 5 years ago we had to tear out about 1000 feet of tile and replace with hardwoods. Pope Hardwood did the demo work and put in the new floor to match the rest of the existing floors. You couldn't tell the difference. They were so good, that when we redid our Kitchen last year, we called them back in to do the fixes and touch ups. Now I have them doing another small project where we moved a wall. These guys are great. My contact there is John Kaminsky (son in law of Mr. Pope...)	Steve P

Woodrich	Richard Huber 404-248-8001 (w) 404-229-0163 (c)		I can highly recommend Richard Huber of Woodrich. Richard did a beautiful job of refinishing some wood floors we already had, including a perfect replacement of some damaged pieces. He also has put in wood floors throughout the rest of my house — starting with raw wood and mixing the color to get a perfect match with what I had in mind. He was not the cheapest, but he was not the most costly, either. He did an excellent job!	Sandy Spruill
