Accentrics Design	1			I want to recommend a store that a lot of people in Dunwoody may not know about. It is Accentrics Design in Johns Creek. They've been around for a long time in several different locations, but their new shop is definitely worth seeing. They have full service interior design and do all types of jobs, big or small. Their showroom is beautiful and full of great ideas to get you inspired. One of the owners lives in Dunwoody.	Laney McClure

Ann Wisiewski - AJW	8	770-650-0751 ann@ajwdesignsinc.com	http://www.ajwdesignsinc.com/	I have enjoyed working with Ann Wisiewski. Ann is great with colors. She is willing to work with the client and their tastes and existing materials. She is very resourceful and able to find alternatives to "to the look" for varying price points.	Robbie Certain
				AJW Design did an excellent job of working within our budget and coming up with clever solutions when we moved into our new home – mostly in the area of window treatments but also they offered creative solutions to a number of design and room setting situations. Her team did a first rate job also of laying out and hanging dozens upon dozens of framed archival pieces in our music studio and rec room, making sense out of what could have been a chaotic situation. Completely pro and easy to work with. Would recommend these folks to anyone who asked.	Keith Bennett
				Ann is terrific! She is a great listener who will take in your ideas, bring her own and find beautiful and creative solutions for your home. She is patient and practical while still creative and talented. She is reliable, professional and a pleasure to work with; I find myself seeking her insight for yet another project in my home. She lives closeby and is always on time. I have no reservations in recommending AJW designs.	Elaine

				<p>Ann Wisniewski of AJW Designs Inc. was our designer for our new kitchen in our house.</p> <p>Ann is a pleasure to work with. She works well within your budget and brings creative ideas from experience to bear. Creating a new kitchen from scratch was a daunting task for us and she helped suggest ideas worked within the plumbing requirements our kitchen had yet brought a vision to life from our requirement to have an Italian Country Kitchen. She also is well connected to other artists and brought in an artist to do some faux work on our range hood. She also helped us ensure the color selection worked BEFORE we painted the entire house. Ann is always professional and on-time and flexible on hours. I would recommend Ann to anyone. You will be pleased.</p>	Laura
				<p>I also recommend Ann Wisniewski of AJW Designs. She brought a lot of experience and an approach that made us feel very comfortable. We asked Ann to provide design plans for our family room and formal room, master bath, and master bedroom. She created a vision for the downstairs area that met our objectives and created an extremely comfortable space that is visually stunning especially compared to what we had before! Our master bath, which was an eyesore, is a great open space now that we enjoy spending time in.</p> <p>Ann worked very well with the contractors that we selected. She communicated frequently and clearly, and was very responsive to our questions and concerns throughout the entire process.</p> <p>When we have enough money to do our kitchen, we won't hesitate to call Ann! :)</p>	Mike
				<p>Ann Wisniewski of AJW designs designed our new kitchen and keeping room. She worked within our budget, recommended a great general contractor and was on site several times a week during the construction to make sure things were going as they should be. Ann is personable and so easy to work with. I will use her again for future projects and would recommend her to anyone.</p>	Heidi Mulling
				<p>I highly recommend Ann Wisniewsky of AJW Designs. She is experienced and very talented in taking a vision in transforming into a stunning reality.</p>	David

				I highly recommend Ann Wisniewski of AJW Designs. Ann has been helping me transform my house to a home. She is great working with my budget as we work one room at a time. She listens to what I like and don't like and she designs around that. She is very attentive and honest in her design, costs and how she treats you. I love seeing her design ideas come together. She even surprises me by adding small details in the room and make me go "wow"! You will be very pleased you had Ann design your home.	Tammie Fowler

				<p>Mia Kurgan is incredible. She walks into a space and immediately recognizes your style, how to enhance it, and how to bring the room even more to life.</p> <p>For some rooms we had a blank slate, for others she guided on finishing touches. She picked colors, arranged furniture, helped me choose from window treatments I'd already bought, arranged art, chose accents based on color and texture.</p> <p>She is clever and creative, makes the space yours, not hers—meaning she'll guide you to bring out the best of what you have and like. She'll work with your budget and taste, and help you find quality within both.</p> <p>I was thrilled and energized after meeting with her. My house came together in a way that I hadn't been able to achieve.</p>	Paula

				Paige of Paige Hudgins Interior Design is terrific! She helped us conceptualize the best use of space in our basement and home office. She is good with color, furnishings, accessories, and the best placement of items you already own!	Amy
				I highly recommend Paige Hudgins. She has her own company and has a great sense of design. She really listens to her clients and she is a genius at brainstorming to reuse and repurpose things to get a new, fresh look. I am a real estate agent and have referred her to quite a few of my clients. She recently staged a house for me that is closing this week. She just uses common sense with a flair for design and is so easy to work with.	Lisa Wren
				<p>As a general contractor, I have worked with Paige Hudgins, Paige Hudgins Interior Designs, on four projects. The most recent is a \$109k renovation of a home off High Point Rd., starting April 1st after the client closes. She is currently designing the cabinets.</p> <p>On this project, her ability to listen to the clients vision for the house, and respond back with pictures and sketches of options on how to achieve that, is excellent.</p> <p>Some architects and designers in my experience (16 years) are quite bullish about getting a design that THEY like. As they are working for the client, this should be surprising.</p> <p>Paige applies the same enthusiasm and dedication for smaller projects we well. The smallest was an kitchen island update, we wrapped with bead board and larger trim. She thought every detail through, down to how the bead board terminates at the side and the kickplate. All my clients love her, and she just helped my land this 100k project. What's not to like?</p>	Reid Horne
				I love working with Paige Hudgins. She listens well and is gifted at seeing the best possibilities in any situation. I am very happy with the results of her work at my house ... she took what I thought was a difficult situation and brought it all together. She is creative, fun to work with and I recommend her highly.	Darby Christopher
