Northside Gutters	770-447-5522	northsidegutter.com		Rhonda Levan	When we had our roof replaced, we decided to get new gutters. The roofing company “subbed out” the job and we got gutters that did not carry water – everything went behind the gutters! Charles, the owner of Northside Gutters, did a full inspection for us and then let us know what needed to be done to fix the problems. He is extremely honest and I am very loyal to Northside Gutters!
